Art Unit: 1742

1. The Examiner has carefully considered Applicant's Response of 9/30/05. In light of the amendment, the Examiner continues the prior rejection as to claim 1, with additional argument, and indicates allowability of claim 2.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lambard et al.

Lambard et al. discloses the invention substantially as claimed. Lambard et al.

discloses a method of making an oxide dispersion strengthened ferritic steel comprising:

providing an alloy powder mixture (col. 3, lines 5-55);

alloying at least a portion of the alloy powder mixture by mechanical alloying (col. 3, lines 39-40);

hot forming said alloyed mixture (col. 3, lines 52-55); and

heat treating said hot formed alloy mixture to form oxide dispersion strengthened ferritic steel (col. 4, lines 34-67).

Lambard et al. discloses incorporating both Y_2O_3 and TiO_2 into the steel (col. 3, lines 39-65).

Lambard et al. further discloses wherein additional oxide compounds are included in the mixture (col. 3, lines 60-64) in amounts that would overlap the oxygen concentration limitation as present in the claim

Lambard et al. further discloses inclusion of all of the elements as claimed by Applicant in amounts that overlap those as claimed by Applicant, establishing a prima facie case of obviousness.

4. Claim 2 is allowable. The Examiner finds that the prior art does not teach or suggest wherein iron oxide is added as a raw material powder to the mixture.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
